

## UMC of Vista Making a Difference in Our World!

The UMC of Vista congregation is making a difference in the world! Each year we are blessed to partner with community organizations that are doing amazing work through funding grants made possible through our UMC of Vista Cable Outreach Foundation.

We have received 28 applications representing work done in our local, national and global community. Each of those 28 organizations and their work are listed below.

Are you passionate about any of these proposals? Our next step is for UMC of Vista Congregation Members to act as “Shepherds” for these Community Partners. What does that mean? Shepherds read the entire grant proposal, make personal contact with the Partner and “dive deep” into what the work that is being done involves. How, along with funding, can UMC of Vista be a part of their amazing work? Do you, as a Shepherd, believe God is calling UMC of Vista to partner with the organization in 2022.

**If you would like to help with this process and be a Shepherd, please call Beth Brainerd Hallock at 760-458-8571.**

Additionally, we ask that you pray for our Community Partners and their work to make our world a better place. Also pray for and with our Shepherds and the Church Council as they discern God’s call for our Outreach Program in 2022.

### Organization Name

### Project Description
